Slop, Waste and Intercepting Hoppers,

No. 43 Fremont St., San Francisco, Cal.

WITH TRAP.

**THE GOLDEN GATE PLUG CLOSET.**—This closet is the best of its kind having been so far constructed. It has the following advantages:

(1.) It has a simple, strong valve, suitable for any pressure, self-closing by a genuine PHOSPHOR BRONZE SPRING, acting with the pressure. To prevent breaking and weakening of the Spring, I have gone to the expense of using PHOSPHOR BRONZE WIRE, which will have the desired effect.

(2.) It has a real sanitary overflow, a copper float attached to a bell of the same metal resting on face of the brass overflow pipe, operated by the rising of the water in the closets above its level, thus absolutely preventing any escape of sewer gas—even the closets being without water.

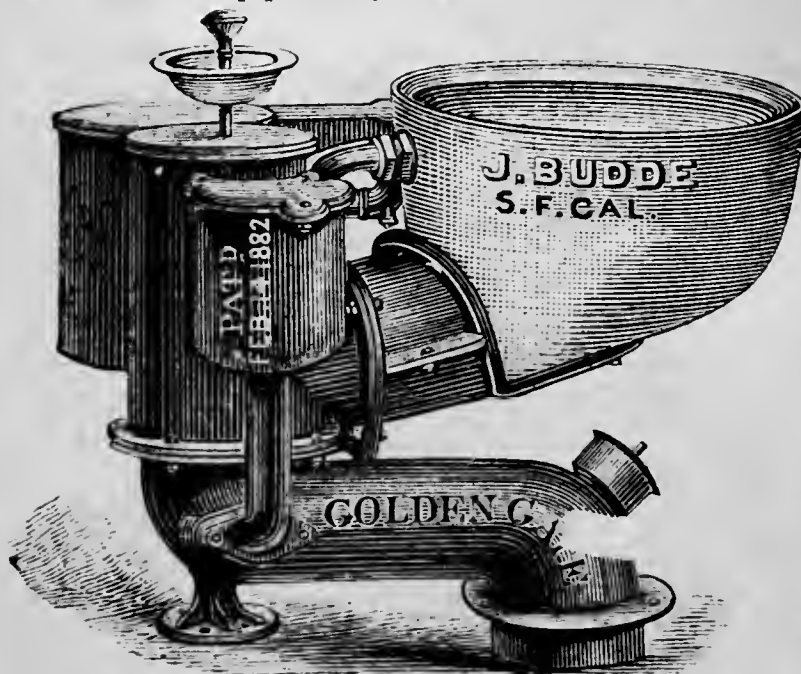

(3.) It has no dead corner, consequently no foul water will be left in the close after lifting of the handle. A constant rush out of the flood chambers will keep the closet and trap perfectly clean.

(4.) The plug or plunger is made in such shape as to prevent passing of rubbish into the float chambers, resting with a soft rubber gasket on a ground heavy brass seat.

(5.) All the iron parts of my closets are dipped into boiling hot asphaltum varnish. This system is far superior to painting with a brush in order to prevent rusting.

With the above stated points, I am able to call my Closets the most perfect and cheapest in the market.

N. B.—Architects who endeavor to furnish their patrons with the MOST RELIABLE goods should not hesitate to give this closet a trial.

SAN FRANCISCO, January 8, 1887.

CARBOLIC SMOKE BALL CO., 652 Market street, S. F.—

Gentlemen: I can add my testimony to the efficacy of the "CARBOLIC SMOKE BALL." I have used it, IT CURED ME of a severe cold and periodical headaches. I am satisfied it has merit, and recommend it to any person suffering from HEAD, THROAT OR LUNG TROUBLES.

"But for the 'Smoke Ball' Our Child Would Have Died."

SAN JOSE, March 26, 1881.

CARBOLIC SMOKE BALL CO.—GENTLEMEN: It is with great pleasure that we testify to the merits of your medicine, the "SMOKE BALL." We purchased one of your Smoke Balls a short time ago, and used it with great success for colds in the head. Consider it the best remedy we ever had in our family. Not long since our little girl had a severe attack of membranous croup, and if it had not been for the "Smoke Ball" she would have died. The first application gave instant relief, and a few applications completely cured her. We consider the "Smoke Ball" a sure cure for croup. Gratefully yours,

Our NEW CHISEL-BIT SAW never clogs or chokes in the cut. It is a free and easy cutter. Frees itself perfectly in all kinds of timber. The bits never work loose. It requires no skill to keep it in order. It is the best and most economical Saw in use.

Some of the salient points of excellence in our new CHISEL-BIT SAWS as compared with other Saws: 1st—The saving of power to do a given amount of work. 2d—The saving of time and expense in keeping the Saws in working order. 3d—The stability of the bits and their fastenings. 4th—The cost at which lumber may be cut per thousand. 5th—The protection afforded the saw-plate from the wear of the saw-dust. We respectfully refer to over three hundred mills now using these saws.

SAN FRANCISCO.

The advertisement is a rectangular decorative frame containing text and intricate floral and scrollwork patterns. The text is arranged in two main sections: a top section with 'PAINTER & HOLSTEAD' in a large, ornate, blackletter-style font, and a bottom section with 'ENGRAVERS OF WOOD.' in a similar font, rotated 90 degrees counter-clockwise. The background of the frame is filled with detailed floral motifs, including sunburst-like flowers and leafy patterns. The text is set against a white background within the frame. The address '411 1/2 California Street, ROOM 21, SAN FRANCISCO.' is located in the bottom right corner of the frame.

Mosaic Marble and Cement Tiles for Pavements Made to Order Cheaper than any other Tiling.

**MOSAIC TABLES, VASES, COLUMNS, STEPS, Etc., Etc.**

INSCRIPTION PLATES MADE TO ORDER. FOUNTAINS AND GARDEN WORK. Wine Cellars, Vaults, Arches and Walls made in Cement Concrete a specialty. All work guaranteed. This Mosaic Compound of Marble and Cement is richer and more decorative and artistic than any marble. To obtain the same designs and ornaments in marble would cost about ten times as much; It does not stain like marble, and is much harder. Consequently, this Mosaic Work is cheaper and will last longer than marble. PATENT APPLIED FOR. We can produce certificates and testimonials from the leading Architects of Europe, showing this work, now in use for over twenty years, to stand to-day just as bright as new. Any Cement tiles can be delivered within ten days from receipt of order. All orders Promptly attended to.

SIXTEEN PAGES, 12 X 16.

The California Patron was established in 1875, by authority and under the direction of the *California State Grange*, as a Farmers' Journal, owned and controlled by the farmers of the State of California, and is now and has been wholly devoted to the interests of the *Farm* and the *Grange*. It has maintained the reputation of the *Farmer's Exponent and Advocate*, and has been so well received and appreciated that its circulation has nearly doubled during the last year.

It was run as an eight-page monthly until 1878, when it changed to a semi-monthly, and ran as such until March 6, 1880, when it appeared as a *Weekly*. On the 1st of January, 1882, its size was increased nearly one-half. On the 28th of October, 1882, its size was again increased.

On the 13th of September, 1884, it was again increased to a *sixteen-page* paper, cut and stitched, and the *seventh* increase was made January 1st, 1885, to its present attractive size.

# The Houser Combined Header and Thresher

## Has Made Grain Raising Profitable.

The Machine above all others which has Revolutionized the Mode of Harvesting in California and Reduced the Cost of Harvesting to Less than \$1.00 an Acre.

### THE PIONEER BELT MACHINE,

Ten Years Since first introduced. Every Houser Harvester sold has Given Entire Satisfaction. None ever Returned to the Works.

It has a larger sale than all other Harvesters combined. Has Steel Shafting and Gearing, 30-inch Cylinder, 42 and 46-inch Separator, and has been materially reduced in weight. It is a

# Pull and Belt Machine.

Strong and Durable. Requires from three to four men and twelve to twenty-six animals, according to width of cut and condition of grain. The "HOUSSER," as constructed for the harvest of 1887, has all the changes which the season of 1886 demonstrated as practicable. The Header part is detachable, enabling any size of Header, from 10 to 30-foot cut, to be used. It is a POWERFUL MACHINE, capable of successfully harvesting the heaviest and worst lodged grain without fear of breaking. Its merits, and the universal satisfaction it has given in the harvest field, has made it THE FAVORITE, with many zealous advocates. It saves three bushels an acre over and above heading and threshing, or enough to pay the cost of harvesting, and places the grain in the sack at less cost than the old method of putting it in the stack. It has

**Wide Header Draper. High. Wide Drive-Wheels. and Tire from 12 to 24 Inches Wide.**

As ordered. Has harvested grain which yielded 70 bushels per acre, and cut, threshed, cleaned and sacked ready for market from 200 to 500 sacks per day, in a good and satisfactory manner.

**IT IS GUARANTEED TO DO GOOD WORK WHEN PROPERLY HANDLED.**

## P R E F A C E.

---

With this volume we begin the publication of an annual SAN FRANCISCO BUSINESS DIRECTORY. From the very liberal patronage received we feel assured that our efforts are appreciated, and that we are supplying a want which we hope so to improve with each succeeding volume, that it will become a necessity in every counting room in the city.

We thank our patrons for their generous support, and hope they may realize all their expectations upon which they patronized this work. We are not publishing this Directory in a spirit of vindictiveness or opposition to any now in the field, but let it stand upon its merits. We have no enemies to punish, neither do we ask any favors from them.

May, 1887.

**728 GOLDEN GATE AVENUE**

Families and Social Clubs intending to give Parties and Entertainments at their houses or outside, will surely find it to their benefit to favor us with a personal visit, and see for themselves, and be convinced that by giving us their orders in full they can save themselves a world of Trouble, Worry and Excitement, which frequently unfits them for the proper enjoyment of their parties afterwards, and also, in most cases, cost them more money.

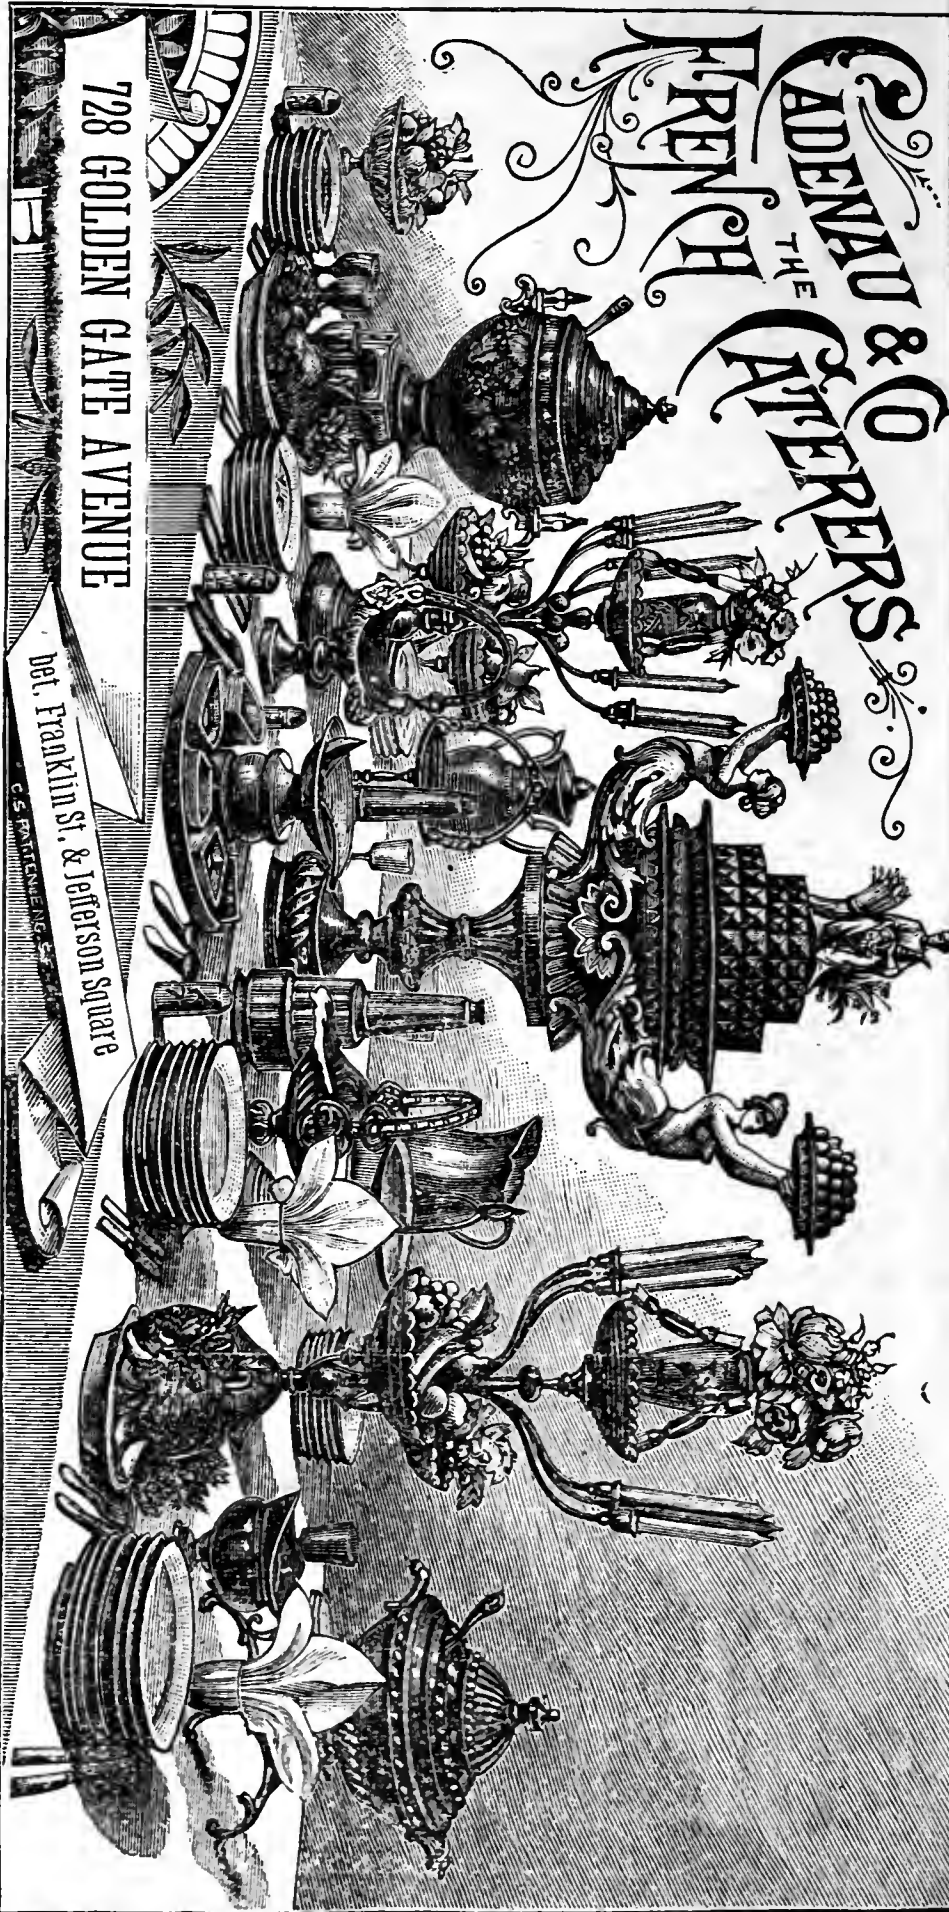

Constantly on hand: Varied Ice Creams, Plombiere, Neapolitain Sorbettes, Wine Jellies, also, to order, Mayonnaise Salades, Terrapins, Boned Turkey, Frogs, Patees, Oysters in any style, Etc., Etc.

P. S.—We also take orders for Flowers, Decorations, Chinese and Japanese Ornaments, Gas Chandeliers and Fixtures, Patent Hat Racks, Musicians, etc. etc.

Turk Street or McAllister Street Cars will take you to within one block from house. Also the Sutter Street System, with its different transfers, to within three blocks, viz: Corner Larkin Street and Golden Gate Avenue.

# HEALD'S Business College <sup>and</sup> Short-hand Institute

24 POST ST., near Kearny,  
SAN FRANCISCO, CAL.

The design of this school is to fit students for the practical affairs of life. After a quarter of a century of success in this city, it may well be called

## The Model School of the Pacific Coast.

THE FULL COURSE INCLUDES

*Single and Double Entry Book-Keeping, Penmanship, Commercial Arithmetic, Mercantile Law, Business Correspondence, Grammar, Spelling, Reading, Drawing, French, German, Spanish, Short-Hand, Type-Writing and Telegraphy*

## SHORT-HAND <sup>and</sup> TYPE-WRITING DEPARTMENT.

This department is devoted to instruction in the best modern method of Short-hand Writing, and in the shortest possible time fits its pupils for verbatim reporting. It qualifies young men and women to take situations as *Private Secretaries, Short-Hand and Court Reporters, Stenographic Law Clerks, Amanuenses, and Phonographic Corresponding Clerks.*

## ACTUAL WORK IN THE COLLEGE.

*Everyone will make mistakes before perfection is attained; but as the causes are pointed out and pupils are shown how work should be done, actual experience is gained, bringing with it self-confidence. The practical Short-hand and Type-writing done within the College enables them to proceed at once to actual employment.*

The Caligraph, the Remington and the Crandal Type-writers are used; and the pupil can learn the use of either or all.

## GENERAL INFORMATION.

Pupils are assisted in obtaining situations. Board for students in private families is secured when desired. Ladies are admitted as pupils in all departments of the College. The rates of instruction are \$75 for the full term of six months. *There are no extra charges for any branch taught in the school.* For further information address for circulars,

# Mills College and Seminary

This institution has been recently incorporated as a College, and C. C. Stratton, D. D., elected President.

## Seminary Course

This remains substantially the same, but with added facilities. Diplomas will be given complete of the Seminary Course as before.

## College Curriculum

This is substantially the same as that of Wellesby College, Mass. Pupils may choose either the Classical or Belles Lettres Course, and the Degrees will be conferred accordingly.

## Special Facilities for Music

These are excellent—only the best of teachers are employed. The instruction in both Vocal and Instrumental Music is based upon the best European methods. Twenty-four pianos give ample opportunity for practice.

## Modern Languages

Most excellent facilities are furnished for the successful study of the Modern Languages. These are given free of charge in the College Course. As in all other studies, the aim is to have only the best Teachers, and secure the best results.

## Location and Buildings

The location is remarkable for its healthfulness as well as for its beauty. The one hundred acres of yard give ample room for outdoor exercise. Removed from the noise, excitement and temptations of town life, the pupils have the quiet so necessary to comfort as well as the highest success in study. The buildings are finely adapted to their purpose. A home-like atmosphere pervades the whole.

## Character of the Institution

The founders, Dr. and Mrs. C. T. Mills, sought to secure the highest morals as well as intellectual culture. It is eminently a Christian School, but not Sectarian.

## Simple Dress

The aim is to have the school life a happy home life, free from ostentation—hence it is especially desired that the dress be simple and warm, suitable for outdoor exercise and good, earnest work.

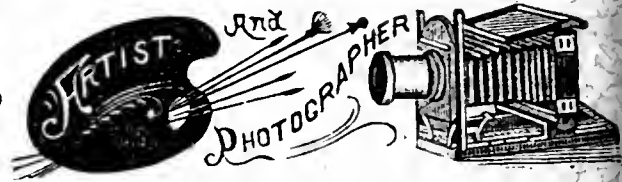

## Expenses

The year is divided into two terms of twenty weeks each. Board, furnished room, tuition in all of the branches of the regular course, per term, \$165.

For circulars giving particulars address President C. C. Stratton, D. D., or Mrs. C. T. Mills, Mills Seminary P. O., Alameda Co. The railroad station is Seminary Park, on the C. P. R. R., Niles and San Leandro road, five miles from Oakland.

**CALIFORNIA.**—Mr. Snow, THE art critic of California, says HODSON makes the finest Photographs he has ever seen, either in this country or Europe.

**UNITED STATES.**—John P. Bonte, THE art connoisseur of the United States, says: "I have made several trips through Europe and America in search of fine art. I have never yet found any Photographs equal to HODSON'S. They are by FAR the FINEST work and best pictures I have ever found.

At the only Competing Exhibition of the Photographers of the Pacific Coast, held July 2d, 1875, it was unanimously decided that HODSON'S were the best.

*Address:*

**CADENAU & CO.**

**728 GOLDEN GATE AVENUE**

Families and Social Clubs intending to give Parties and Entertainments at their houses or outside, will surely find it to their benefit to favor us with a personal visit, and see for themselves, and be convinced that by giving us their orders in full they can save themselves a world of Trouble, Worry and Excitement, which frequently unfits them for the proper enjoyment of their parties afterwards, and also, in most cases, cost them more money.

Constantly on hand: Varied Ice Creams, Plombiere, Neapolitain Sorbettes, Wine Jellies, also, to order, Mayonnaise Salades, Terrapins, Boned Turkey, Frogs, Patees, Oysters in any style, Etc., Etc.

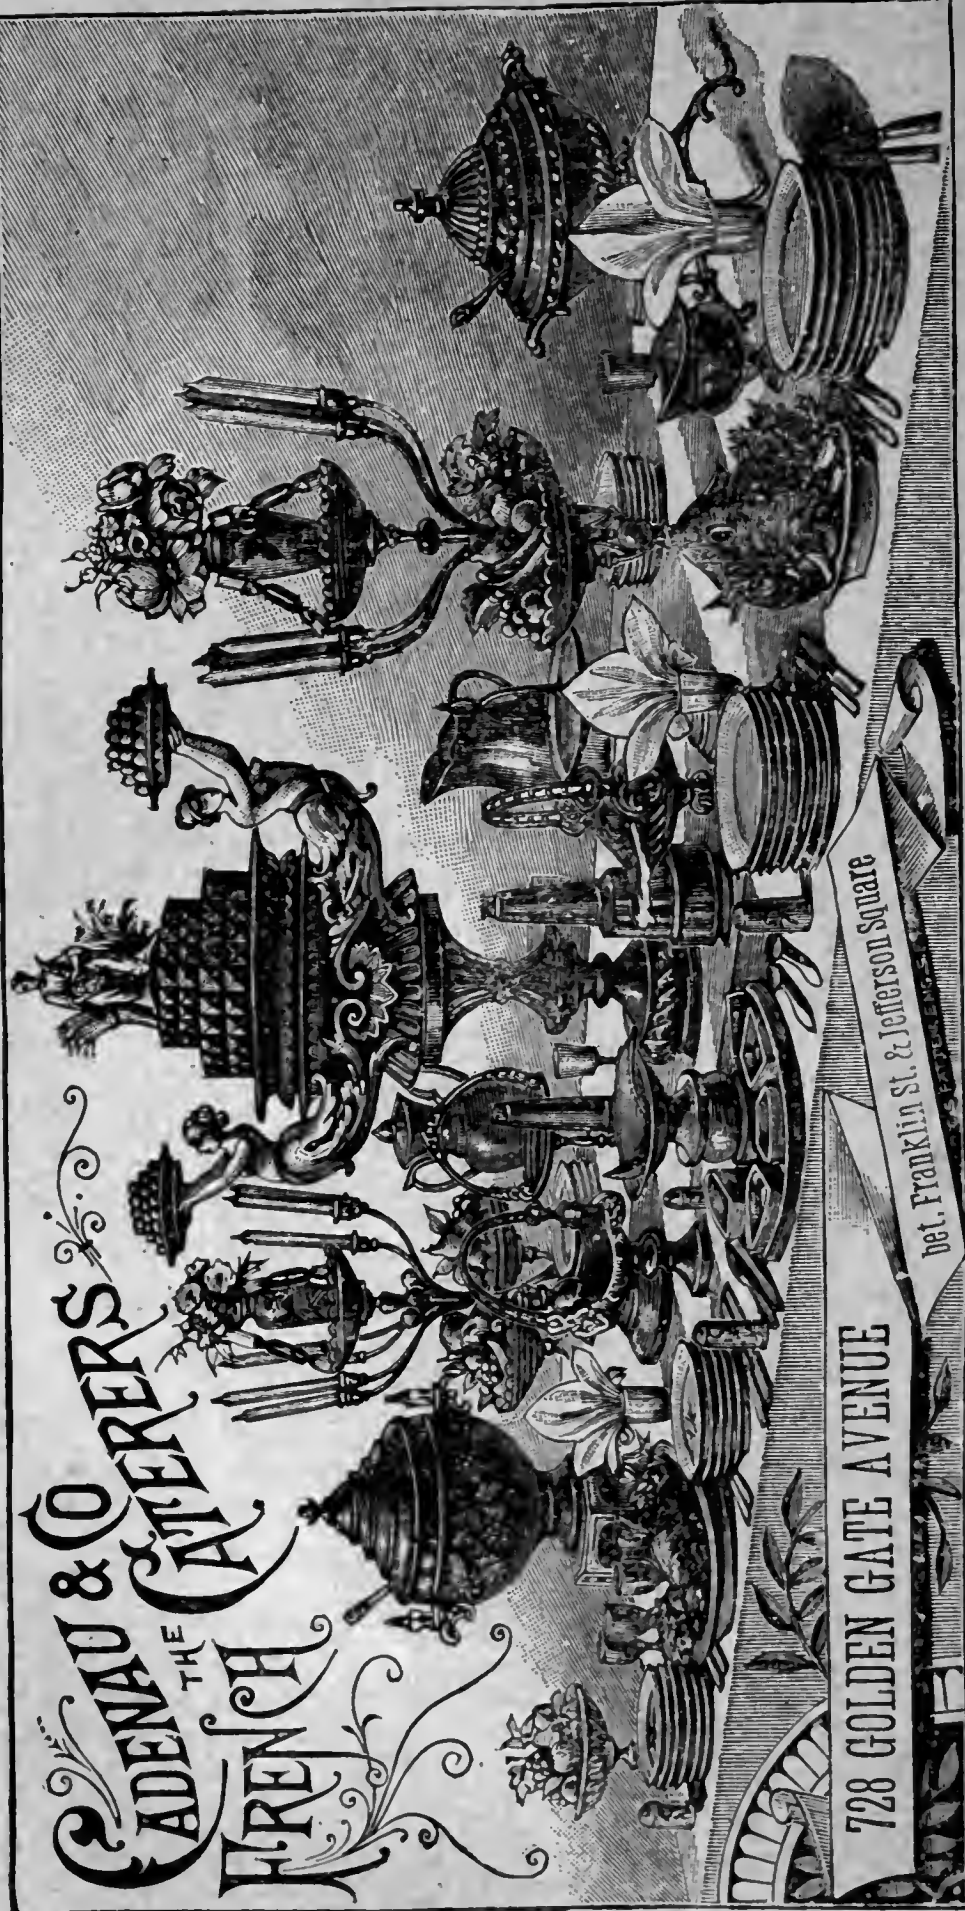

P. S.—We also take orders for Flowers, Decorations, Chinese and Japanese Ornaments, Gas Chandeliers and Fixtures, Patent Hat Racks, Musicians, etc. etc.

Turk Street or McAllister Street Cars will take you to within one block from house. Also the Sutter Street System, with its different transfers, to within three blocks, viz: Corner Larkin Street and Golden Gate Avenue.

*(See other side of this Card.)*

First Prize and Special Diploma awarded at the Mechanics' Institute Fair, 1886, for finest Wedding-Buffer Table and for best appointed Dinner Table.

VIEW OF THE ACTUAL BUSINESS DEPARTMENT OF THE STOCKTON BUSINESS COLLEGE

# Stockton Business

---

COLLEGE

AND Normal Institute

---

*This is one of the Oldest Business Colleges on the Coast*

**I**TS GRADUATES OCCUPY positions of honor and trust throughout the mercantile community, and the thoroughness of their preparation has merited the commendation of business men everywhere.

The remarkable success and growth of this Business College is due to the following reasons:

I. *The Course is very thorough.* This school has never made any extravagant claims. It does not offer its diploma to any but those who have completed every part of its practical and complete course of Business Training. A graduate from this school has received the most thorough training given by any Commercial College in the country, and is competent to fill any position open to any young accountant.

II. *The Expenses are Reduced to a Minimum.* We have perfected a system of boarding which enables us to offer first-class board for \$10 per month—no more, no less. This is its exact cost to us. Room rent, including lights, \$3 per month and upwards.

III. *The Honest Dealing with our Patrons.* This school makes no profit on board, stationery, or books. Everything is furnished to students at cost. There are no extravagant charges.

IV. *No Grades.* Individual instruction given. The student can thereby advance as fast as his ability will permit, and he will not be kept back by others of less talent and application, nor will the backward student be obliged to pass over work which he does not understand, in order to keep up with a class.

Those whose early education has been neglected are instructed privately without extra charge, and any young man or woman who desires a business education should not fail to write to us.

# NORMAL COURSE

**WE** make a specialty of training teachers. In a single month, this school year, thirty students from this school received teachers' certificates.

As in the Commercial Department, a special study has been made to reduce all expenses to actual cost, and to fit the student for his professional work in the shortest possible time.

## TEACHERS' DEPARTMENT

The constant demand for well-trained teachers requires that we make a specialty of this department. The most prominent objections, urged by teachers, against the course pursued in most of the Schools and Academies, are: 1st *They are held back in their classes on account of those less advanced and less interested in their studies.* 2nd *They have not the privilege of selecting their own studies.* Our large attendance enables us to have a much greater variety of classes than can possibly be had where the number is small, hence students can select their own studies, and advance as they may desire.

We have such arrangements as will enable those teachers, who have but a short respite from their schools, to spend their time and means to the best possible advantage. Beginning, advanced, and review classes are formed in all the branches, not at the beginning only, but at different periods during the term. This accommodates teachers whose schools close before the opening of the regular term. Such may enter at any time, begin their studies just where they wish, continue in school as long as they can, and then drop out, teach a term, return and take up their studies where they left off. Many are familiar with certain branches, but desire to review them briefly. It is a well-known fact among teachers that **WE DO FORGET**, and become unfamiliar with those branches which we do not constantly teach. It is too true that **GRADUATES**, generally, are not so well prepared for examination for a teacher's certificate at the **CLOSE OF THEIR COLLEGE COURSE**, as they were when they began it, simply because they have so long neglected the common branches. They need a **BRIEF REVIEW**. No one is held back on account of students less advanced. This course, we have found, accommodates a large class of students and teachers.

## SHORT-HAND AND TYPE-WRITING

Our classes in Short-hand receive the entire attention of an experienced instructor.

## CLASSIC COURSE

Complete in two years; also individual instruction in the Ancient Languages.

## MODERN LANGUAGES

French, German, and Spanish.

## MUSICAL DEPARTMENT

Well-fitted with a corps of artists in their profession.

**PORTLAND.**

**Multnomah County**—The city is situated on the Willamette River, two ve miles above its confluence with the Columbia. Portland's growth and progress are based upon the solid foundation of natural advantages of position. It lies in the very heart of a great producing country which has no other outlet, and for which it must serve as a receiver and distributor of exports and imports. It is the most westerly terminus of three overland railroads. Elegant passenger steamships sail to San Francisco and Puget Sound, Columbia and Alaska. The press of Portland is well represented, which in their columns news can be found from all parts of the world, which comprises four dailies and fourteen weeklies, besides several other commercial publications. Portland, a metropolitan city, can boast of her fine churches, schools, pnblic buildings, parks and business blocks, and well laid out streets, which are kept clean the year roud. Population, 42,000.

# HOW TO BUY LAND.

Certified Checks, payable at sight, on the Puget Sound National Bank, given as Security for Money Invested by

## COOK & MOORE

REAL ESTATE BROKERS,

SEATTLE, WASHINGTON TERRITORY.

**To those desirous of buying property on time, and becoming property holders and landlords, we offer the following :**

We will allow you from three months to five years in which to pay for the land you select.

We charge neither premium or interest on time payments, and will give you a warrantee deed.

We have lots at \$40 and \$65 that are close to Madison street, and are within a radius of one and a half miles from the Postoffice. They lay well and are desirable lots.

We will give a certified check to the purchaser for the full amount of each and every installment.

The check is drawn on the Puget Sound National Bank, and is made payable at sight, thus granting the purchaser advantages and privileges that have never been before offered.

After you have bargained for one or more lots, should you, through sickness or accident, become pressed for money, you have only to present your checks at the bank and they will be cashed on the spot for their full face value.

Should you see other land that you consider a better bargain, the above still holds good. In short, the money in the bank awaits your order and is absolutely beyond our control until you present the checks to us in payment in full for the piece of land bargained for.

You are, therefore, by the option and privileges we offer, insured against accident. You are your treasurer and banker and at the same time an owner of valuable property.

Should you at any time, however, present the checks at the bank for payment they will be immediately honored and forwarded to us, and you thereby annul all rights of purchase of the said land.

Make your income, no matter how small, earn something. Set your corner stone before the boom and benefit from the advance.

**We have One Million Dollars to Loan for Building Purposes at Low Interest.**

For Information relative to Seattle send to Cook & Moore.—For Property or for Money send to Cook & Moore.—Seattle has Broad and Narrow Gauge Railroads, does a larger Shipping and Wholesale Business than all the Cities on Puget Sound added together.

**SEATTLE, W. T.**

The county seat of King County, and is the largest city in Washington Territory, located on one of the finest harbors on the Pacific Coast. Back of the city lie Lakes Union and Washington, at a distance of two miles. Seattle's central position and fine body of deep water harbor, combined with the spirit and enterprise of its wide-awake inhabitants, will always insure its supremacy from a commercial and shipping point of view. Already some seventy steamers, great and small, ply to and from its wharves, and is no uncommon sight to see from fifteen to fifty great ocean sailing vessels at one time at its docks, or anchored in the bay. The city is regularly laid out, and contains many buildings and business blocks, and when viewed from the bay when entering the harbor, it presents a most pleasing appearance, giving one an immediate and firm belief in its present and future prosperity. **Water Supply.** There are no less than three companies—the Spring Hill, the Union and the Coppin, with three separate distinct systems supplying the city with pure water. **Light.** The Seattle Gas-light Company furnish gas at two dollars per M, and they also provide the arc electric light for those who prefer it. **Street Railways.** Seattle is the only city in the Northwest possessing a cable line, also horse-car line, over ten miles of track now in operation. **Hotels and Hack Rates.** Seattle has several first class hotels, all of which run free busses to and from the steamers and railway stations. Private board can also be obtained at from five dollars upwards per week. The hack rates are reasonable. **Newspapers.** Seattle can boast of three daily newspapers, the Post-Intelligencer, Times and Press, five weeklies and several monthlies. **Banking.** There are established in the city six banks, as follows: Merchants' National Bank, Puget Sound National Bank, First National Bank, Messrs. Dexter, Horton & Co., Guarantee Loan and Trnst Co., and Safe Deposit Co. **Industries.** Among the numerous industries of Seattle may be mentioned the following: saw mills, brass and iron foundries, iron, boiler and soap works, machine shops, tanneres, furniture, fur, soda and ice factories, and breweries. Population, 25,000.
